

**UM Chemistry/Research Scientist Search 2008**

<http://www.chem.memphis.edu/search>

**THE UNIVERSITY OF MEMPHIS** The Department of Chemistry invites applications for a staff scientist in Computational Chemistry to start immediately. Applicants must have a Ph.D. in Chemistry and excellent oral and written communication skills. The successful candidate will be expected to utilize computational methodologies to perform scientific research, to offer scientific education and training, and to install and maintain software and hardware for the department. **Applications must be submitted on-line** at <https://workforum.memphis.edu>. Applicants will be required to upload an application letter, curriculum vita (including a list of publications, presentations, research interests, etc.), undergraduate and graduate transcripts, and email addresses of three professional references. Screening of applicants will begin Oct 1, 2008, and may continue until the position is filled. Please direct inquiries regarding the position to the search committee chair, Dr. Charles Edwin Webster (cewebstr@memphis.edu). The University of Memphis is an Equal Opportunity/Affirmative Action employer.
